

## Non-Use of Genetically Modified Organisms (GMO's)

MEGGLE Products:

- Lactose Monohydrate: CapsuLac® 60, FlowLac® 90, FlowLac® 90 MS, FlowLac® 100, FlowLac® 100 MS, FlowLac® 100 SD, GranuLac® 70, GranuLac® 70 MS, GranuLac® 80, GranuLac® 140, GranuLac® 140 S, GranuLac® 200, GranuLac® 200 MS, GranuLac® 200 S, GranuLac® 230, InhaLac® 70, InhaLac® 120, InhaLac® 140, InhaLac® 145, InhaLac® 150, InhaLac® 160, InhaLac® 180, InhaLac® 230, InhaLac® 240, InhaLac® 251, InhaLac® 300, InhaLac® 400, InhaLac® 500, Lactose Monohydrate 200 Mesh IP, Lactose Monohydrate Impalpable, Lactose Monohydrate Low Endotoxin, PrismaLac® 40, SacheLac® 80, SorboLac® 400, SpheroLac® 100, Tablettose® 70, Tablettose® 80, Tablettose® 100, Tablettose® 100 MS

- Co-processed Excipients: Cellactose® 80, CombiLac®, MicroceLac® 100, MicroceLac® Plus, RetaLac®, StarLac®

*All "Low Nitrite" Grades are included.*

The MEGGLE Products are not genetically modified organisms (GMO's). They do not contain and do not consist of GMO's. They are not produced from GMO's and do not contain ingredients produced from GMO's.

The MEGGLE Products do not have to be labeled regarding GMOs in accordance with Regulations (EC) No 1829/2003 and 1830/2003.

Regarding Lactose monohydrate as MEGGLE Product or component in MEGGLE Co-Processed-Excipients:

The raw material for the production of Lactose Monohydrate is sweet whey which is purchased from cheese making dairies. Our suppliers are free in the choice of milk clotting agents. In this regard, the use of all legally allowed milk clotting agents including enzymes produced from genetically modified microorganisms is possible. This use does not fall under the mentioned regulations and does not imply any labelling requirements for the products.

Regarding StarLac® and CombiLac® containing ingredients derived from potential GM plants, i.e. maize: The material is sourced from documented IP-farming and shows specific PCR negative results.
